ABOUT ME

Computer Science student and aspiring Software Developer & AI/ML Engineer with hands-on experience in Python, Machine Learning, Artificial Intelligence, Computer Vision, and Web Development. Skilled in building practical applications and solving real-world problems through software and AI technologies. Experienced with tools and technologies such as OpenCV, Git, GitHub, and modern development frameworks. Passionate about developing innovative solutions, learning emerging technologies, and continuously improving technical and problem-solving skills.

EDUCATION

2024 – Present	Bachelor of Technology (B.Tech) in Computer Science & Engineering — Artificial Intelligence & Machine Learning
Sandip University, Nashik	School of Computer Science & Engineering, Sandip University, Nashik, Maharashtra, India Specialization in Artificial Intelligence & Machine Learning, with coursework and hands-on learning in software development, AI/ML, and web technologies.
2022 – 2024	Higher Secondary Certificate (12th Grade) – Science
Shramik Junior College, Sangamner	Shramik Junior College, Sangamner, Ahilyanagar, Maharashtra, India Science stream with Physics, Chemistry, Mathematics, and Computer Science (PCM + CS).
2017 – 2022	Secondary School Certificate (10th Grade)
GRVPSVM, Rajur.	Guruvarya R. V. Patankar Sarvodaya Vidya Mandir Secondary & Higher Secondary School, Rajur, Akole, Ahilyanagar, Maharashtra, India Foundation in Mathematics, Science, Computer Science, and problem-solving.

EXPERIENCE

Oct 2025 – Aug 2026	Full-Stack Developer — Intern
	Code Crafter Core Software Pvt. Ltd. Nashik, Maharashtra, India
	- Contributed to full-stack and front-end development of web-based software applications. - Worked on AI Agent development and integration for practical application workflows. - Developed and improved application features across frontend and backend components. - Collaborated with the development team to implement, test, debug, and refine software functionality.

SKILLS

• Python	• NumPy	• Pandas	• OpenCV
• Artificial Intelligence	• Machine Learning	• Deep Learning	• Computer Vision
• PyTorch	• TensorFlow	• Scikit-learn	• FastAPI

PROJECTS

1. VisionTwin-AI	2. AI Resume Screening & Job Recommendation	3. AI-Based Wi-Fi Network Optimization
TypeScript • WebRTC • YOLO • SLAM • Open3D • FastAPI • React	Python • Machine Learning • NLP	JavaScript • AI/ML • Network Analytics
Developed a real-time AI-powered 3D scene reconstruction platform that transforms smartphone camera input into an intelligent spatial scanner using computer vision, SLAM, and 3D processing technologies.	Developed an end-to-end machine learning system for automated resume analysis, skill extraction, candidate ranking, and intelligent job recommendations using NLP techniques.	Developed an AI-based web application to analyze Wi-Fi performance using signal strength, channel congestion, latency, and connected-device data to identify network optimization opportunities.
